

## Unifrog

**Unifrog** is a one-stop careers advice station. It is a great tool to access information on colleges, universities, careers and qualifications. Pupils can keep their profile up to date and get advice on their next steps. They can add activities to their 'locker' to build a portfolio which can support CV writing, college and job applications. Pupils' logins will stay in place even once they have left Leytonstone School, provided that Unifrog, as a company, still exists.

We encourage pupils to use Unifrog from Year 7 onwards so they can start exploring their interests and strengths and build stronger career knowledge. Unifrog includes up-to-date labour and market information which is relevant to our local area.

### **Pupils**

Pupils can access the platform by clicking a link in their welcome email. They will use the temporary password Morpeth! to begin using the platform. Once logged in, pupils will be asked to change their password. Pupils can sign in from any computer, tablet, or smartphone. Pupils can easily reset their password by clicking the "Reset password / Resend welcome email link" on the sign-in page.

Pupils can log in here: <https://www.unifrog.org/sign-in>

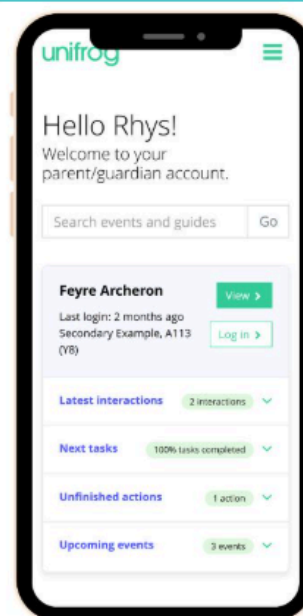

### **Parents/carer**

Parents and carers can also have their own Unifrog account. You will be able to research careers, attend webinars delivered by employers and universities to learn more about their opportunities, and compare pathways so you can support your child in making an informed decision about their next steps. You can also sign up to Unifrog's parent/carer newsletter when you first sign in to get expert advice and guidance on supporting your child with their next steps.

## Parents and caregivers: get signed up!

Why should students have all the fun?! You can create your own account to see key details about your child's Unifrog journey, and to access the tools in the same way students do!

Scan this QR code or go to [www.unifrog.org/parent](http://www.unifrog.org/parent) and create an account using your email address or single-sign on (i.e. signing in with Google or Microsoft).
