Re: Pupil assessment calendar 2023-24

Dear families,

Improving the understanding pupils and their families have of how assessment and feedback work at the school has been a priority this year. In the autumn term, we received feedback from families about this and so we have constructed an assessment calendar for families with pupils in each year group.

Attached to this letter you will find the assessment calendar for (Year 7) for you and your child.

The assessment calendar will help pupils remember which assessments they have coming up in various subjects across the academic year.

More detailed information regarding the nature of the assessments and what your child needs to do in order to prepare for an assessment can be found on the relevant Google classroom pages.

This document can also be found on our website at the following link:

<https://www.leytonstoneschool.org/page/?title=Assessment+Calendars&pid=175>

We hope you find this information useful.
