

Religious Education Learning Journey

At Leytonstone School we are proud to offer all students the opportunity to study other religious cultures in depth, to increase their understanding of and sensitivity towards those who think differently to themselves. We consider how religious and non-religious worldviews affect people's lifestyles and morals through thematic studies relating to issues such as human rights and social justice, peace and conflict, and relationships and families. Our classrooms are places where discussion and critical thinking are encouraged, giving students the skills to express themselves confidently in a rapidly evolving world.
